

LUCHT BOOTJACK 932

LUCHT RED BUSHWACKER 927

LUCHT BUSHWACKER 941

Dear Cattle Producer,

Lucht Red Angus is offering a quality group of Red Angus bulls and Black Red Factor Angus bulls for private treaty this spring. The bulls were on test for 117 days at the Van Dyke Angus Ranch. The results are listed in the enclosed supplement sheet. Our calf crop of bulls in 2009 was 57 and we put the top 26 on test. The bulls look very good coming off test as the target gain per day was 3.0 lbs and the average of all bulls exceeded this at 3.33 lbs, with the top 3 posting a gain over 4.0 lbs.

We would like to call your attention to the sire groups:

LUCHT BUSHWACKER 703

This black red factor bull was the Midland Bull Test ADG Champion in 2008. We have three outstanding sons in the offering. Lot 927 is red and gained 4.15 lbs on test.

LUCHT ROMEO R052

Tested OSF, R052 sired 32 calves in 2009 with an average BW just under 70 lbs. He's on track to have the same results in 2010. We have 10 sons that could all be used on heifers. His daughters in production look great.

RED BRYLOR PASQUALE 213P

Lots 923, 924 and 939 are ET flush mates out of the Canadian Pasquale 213P known for his extreme light birth weight. Clean fronted heifer bulls.

OHRR 10H DAKOTA RAMBLER 75R

Lots 914 and 915 are sired by Dakota Rambler 75R out of 2 top VDAR cow families Pridella and Beauty. High maternal performance in a deep deep ribbed, thick package. Lot 915 weighed off test at 1300 lbs with ADG of 4.5 lbs.

LUCHT BOOTJACK 932

Lot 932 is a solid ET son of BJR C-Chief 811 (Boot Jack). He is top 1% for CED and top 2% for BW.

Please give us a call or stop by and let us have the opportunity to find a bull that will fit into your program and go to work for you.

Sincerely,
Greg Lucht
